# WAYS OF MEN MARINE

German Steamship Nunantia For Far Japan.

WORD FROM THE ROANOKE

Yesterday's Budget of Waterfront Coming and Going and the Men Who are in Command.

San Francisco, Dec. 2.-After a dangand afterwards tossed about in the heavy seas off the California coast, the steamship Roanoke is expected to arrive at San Francisco about 4 o'clock this afternoon. At 9:30 o'clock anxiety for the vessel was relieved on receipt of news through the Associated Press that the vessel was off Point Reyes, 30 miles north of San Francisco, and heading southward, in tow of the tug Defiance.

When sighted the Roanoke was making slow time, about 51 knots an hour, but was not in distress. Tugboats will assist her if assistance is required. The position of the Roanoke has been most perilous, and the news of her safety is certainly good.

Later-The Roangs arrived inside, San Francisco harbor at 2:15 o'clock, and proceeded at once to discharge her

The naturalization papers and mate's license of Philip G. Grove, first mate of the steamer Olympia, were surrendfred to the secret sprivic agents at San Francico Wednesday. The papers of the Olympia's captain, John Truebridge, will be surrendered to the secret service officers as soon as the steamer arrives at San Francisco from San Pedro. The men are said to be British subjects, who have no right to American naturalization papers, and therefore have no right to licenses to command American vesels, Captain Truebridge brought the Olympia from England and News, Garnered in the Rain-Craft commanded her when she sailed as a tramp steamer under the British flag. He also brought James J. Hill's big steamer, Dakota, around the Horn from New York. The Olympia was recently placed under the management of the North Pacific Steamship Company, to alternate on the run between Portland erous voyage from Portland, during and San Pedro with the steamer Roawhich she was disabled off Eureka bar, noke, which was disabled in attempting to cross the bar at Humboldt Bay, Monday afternoon. Because of the fact that the Olympia ran aground in San Francisco Bay, it was deemed advisable to take her off the run in favor of a lighter draft vessel, and yesterday the company announced that the Jeanie would take her place although the company's agent said that it had not off. If it is found, when the Roanoke on to Portland, arrives in port, that her repairs will require some time, it is probable that the Olympia will be retained in service. Should this be done, new officers will be

### KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germe.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of nair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these garms and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send ioc.
